

Lublin, 26.03.2021

Dear Customer,

Worldwide supply chain troubleshoots due to COVID-19 resulted in major price increases of aluminium and billet premiums. Moreover, the vast majority of our subcontractors and suppliers have already increased prices.

In order to maintain the service level and quality of production, we are also forced to announce our price increase.

Therefore, we would like to inform you that our prices will go up by **7%**.

The new price list will be uploaded on 26.04.2021 and it will replace the existing one. All orders sent before 23.04.2021 will be sold at our former prices.

Although this decision is not popular, we do hope it is justified and will be accepted with understanding. We are looking forward to continuing cooperation with you.

With Regards,

Aliplast Sp. z o.o.
